11th March 2025

Dear Parents and Carers of pupils in Year 5,

In line with the statutory requirements in the 2014 National Curriculum, starting w/b 17th March 2025, Year 5 will be learning about the differences between boys and girls and how their bodies change when they enter puberty. They will consider and discuss the changes boys and girls go through, physically and emotionally. These lessons will be generally taught as a whole class through both Science and PSHE. Prior to these lessons, you may want to discuss with your child some of the topics that will be taught. Overleaf, we will provide you with an overview of the content, this will also be available on Clasdojo. If you have any questions or concerns, please speak to your child's class teacher.

Thank you for your continued support.

Mrs P Moore
